Big blow to Tesla as govt has no plans to cut import duties on electric vehicles

New Delhi The government said it has no plans to cut import duties on electric vehicles after US-based electric carmaker Tesla made an appeal to 🛐 authorities to slash taxes. It is a blow to Tesla plans to start selling its imported electric vehicles in India. The price of Tesla's electric vehicles are already high and import duty of 60-100 per cent will take them beyond the reach of most customers in the country.Earlier, it was reported that the government was considering a plan to lower import duty on Tesla's electric vehicles if it plans to

start local manufacturing.Read | Govt may lower import duty for Tesla vehicles, but on one conditionHowever, junior minister Krishan Pal Gurjar told the Parliament on Monday that there is no proposal under consideration in the Ministry of Heavy Industries. He was referring to the ministry in charge of making policies for the auto industry.Gurjar also informed that the

government is taking steps to promote the use of electric cars by lowering domestic taxes and adding charging stations. While the government has introduced several measures to promote local manufacturing and use of electric vehicles, it is unlikely that any special provision will be made for Tesla, which plans to initially start selling wholly-built units of its

EVs. Musk has already floated the possibility of a local factory once it starts selling the imported vehicles.Last month, Tesla had written to the transport and industry ministries, requesting them to cut import duty on electric vehicles to 40 per cent from the current range of 60 per cent to 100 per cent. The current rate applicable is 60 per cent for electric vehicles prices below \$40,000 and 100 per cent for anything above. Tesla was expected to start selling its vehicles in India by early 2021, but the plans have been delayed due to the high import duty

hurdle. While Musk remains eager to tap the Indian market, the price of its vehicle coupled with high import duty will be a big blow to actual market sales, given the low demand for EVs.

Even Musk knows that the high import duty on wholly-built units will make Tesla cars "unaffordable" in the country.

The retail portion was subscribed over 14 times. The company is likely to get listed on the stock market on August 6 and the allotment process for the public offering will be finalised today.

However, it seems that the pharma company is losing ground on the grey market, which is the unofficial market where unlisted shares trade before hitting the bourses. The company's grey market premium (GMP) has fallen below Rs 100, reported The Economic Times. As of today, the unlisted shares of the company were trading at a premium of just 12 per cent on the issue price. It may be noted that the company's GMP had been falling for the last few days.Some analysts indicate that the poor sentiment of the pharma sector could be lowering the company's premium on the grey

New Delhi State-run oil marketing companies (OMCs) kept fuel prices unchanged on Tuesday as global crude oil prices remain weak. There has been no change in fuel prices for the past 17 days.

Despite weaker international oil prices, petrol and diesel are retailing at record high levels across the country. In Delhi, petrol is retailing at Rs 101.84 per litre, while it costs nearly Rs 108 per litre in Mumbai. Petrol rates remain above Rs 102 per litre in Kolkata and Chennai.

There are at least 25-30 cities where petrol price has crossed Rs 100 per litre.

Meanwhile, there has been no change in diesel prices as well. It continues to retail at Rs 89.87 per litre in Delhi and above Rs 90 per litre in all other major cities. Prices in Mumbai (Rs 97.45), Bhubaneswar (Rs 97.99), Hyderabad (Rs 97.96) and Jaipur (Rs 98.96) are some of the highest among all major cities. Elevated fuel prices have been a major concern for citizens as it is directly impacting household finances. Higher petrol and diesel prices have led to a sharp rise in inflation, leading to hiked

prices for many goods and services. The country's economic recovery could also face turbulence if fuel prices remain elevated for a long duration, according to multiple experts. Consumer sentiment has already taken a hit and even as demand rises, there is a risk of stagnation due to higher prices of goods and services.Fuel prices have increased sharply in 2021 after a recovery in international crude oil prices forced state-run OMCs to increase domestic rates. However, high taxes levied on fuel have made all the difference.

The central government had sharply increased

Gold and Silver price: Precious metals record dip on MCX; check latest rates here

Both gold and silver are trading on the lower side of the Multi Commodity Exchange (MCX). Check the latest city-wise rates here.

New Delhi On Tuesday, both gold and silver prices are trading on the lower side of the Multi Commodity Exchange (MCX). Witnessing a dip of Rs 171 or 0.36 per cent. gold futures maturing on October 5 stand at Rs 47,935 per 10 grams on the MCX. Meanwhile, silver futures maturing on

September 3 are retailing at Rs 67,587, recording a marginal dip of Rs 364 or 0.54 per cent.

Yesterday, while gold stood at Rs 47,951 per 10 grams, silver futures maturing on September 3 was at Rs 67,812 per kg, after witnessing a slight hike of Rs 33 or 0.05 per cent.Gold and silver prices on the international market:As per Reuters, gold prices inched lower on Tuesday as investors

excise duty on petrol and diesel in 2020 after the Covid-19 pandemic led to significant revenue loss. The excise duty has not been reduced since then. As global rates rose sharply in 2021, domestic fuel prices also broke records. The present rates at which petrol and diesel are retailing are the highest-ever recorded in the country. Despite the burden on citizens, the central government has made it clear that it is not in a position to reduce excise duty levied on petrol and diesel. Even states have said it would not be possible to reduce that levy value-

added tax (VAT) levied on fuel at the moment. Without the possibility of a tax cut, only a reduction in actual domestic fuel rates by OMCs could provide some respite to citizens. There were high chances of a fuel price cut in July as international oil prices fell sharply, but a subsequent rebound has prevented any reduction.At the moment, it seems domestic fuel prices may not reduce anytime soon, and it could directly impact the country's economic recovery as a threat of a possible third wave looms.

> avoided taking big positions ahead of key U.S. non-farm payroll data due later this week, an important parameter to determine the U.S. Federal Reserve's future policy stance.Spot gold fell 0.1 per cent to \$1,810.96 per ounce by 0348 GMT, while U.S. gold futures dropped 0.5 per cent to \$1,813.40. Kyle Rhoda, an analyst at IG Market said, "There's a lot of spare capacity in the labor market ... If there's the sense that the Fed will continue to keep policy settings accommodative medium to longer-term, that's a really good dynamic for gold prices, especially if we see inflation expectations remain relatively elevated.""Gold futures are practically moving along a flat 200-day EMA which is further indicative of a consolidating market."The holdings of SPDR Gold Trust, the world's largest goldbacked exchange-traded fund fell 0.2% to 1,029.71 tonnes on Monday, indicative of sentiment. Silver fell 0.5 per cent to \$25.30 per ounce.
